# ONIKS IN MURTRA GROUP 1892

Smo ponosni dobavitelj vodil in dodatkov Murtra. Vodilnega proizvajalca sistemov vodil v Evropi s dolgoletno tradicijo.

Da bi našli izvor podjetja, se moramo vrniti v leto 1892, ko je mladenič po imenu Ramón Murtra v Granollersu ustanovil majhno tekstilno podjetje z nekaj ročnimi statvami. S podporo svoje družine je na začetku 20. stoletja ustanovil podjetje, ki je utrdilo njegovo dejavnost kot proizvajalec industrijskih trakov in hitro postalo vodilno v sektorju.

Murtra si je že od samega začetka prizadevala razviti boljše načine delovanja, iskati popolnost in jo uveljaviti kot vzor, po katerem se je lotiti novih izzivov. Dejstvo, preverjeno skozi vse svoje izdelke, razvite od leta 1892 do danes. Inovacije, ki se nanašajo na procese in izdelke, so motor, ki je vodil tekstilno proizvodnjo skozi njeno zgodovino, vendar se je uspel razviti v smeri razvoja novih izdelkov in trgov. Murtra vztrajno išče nove linije, nove poslovne priložnosti in izboljševanje svojih procesov.

Murtra je več kot le podjetje z dolgoletno tradicijo v tekstilnem sektorju in proizvodnji industrijskih trakov. Skozi več kot stoletje je pet generacij poslovnežev znalo delovati kot motor in hkrati kot vodnik pri načrtovanju velikih napredkov, zaradi katerih se je postavil kot merilo v tekstilnem sektorju. na svetovni ravni.

*To pinpoint the origins of the company we have to go back to 1892, when a young man called Ramón Murtra founded a small textile business in Granollers with a few hand-operated looms. With the support of his family, he helped the business take off at the beginning of the 20th century, consolidating its activity as a manufacturer of industrial tape and rapidly becoming the leader in the sector.*

*Right from the outset, Murtra has sought to develop better ways of doing things, striving for perfection and establishing it as the model to follow and the basis for undertaking new challenges. This can be seen through all products it has developed since 1892 until the present. Innovation applied to processes and products is the driving force that, throughout its history, has guided a textile-based production which has, however, successfully evolved towards the development of new products and markets. Murtra continues to seek new lines, new business opportunities and improvements in its processes.*

*Murtra is more than just a company with a long tradition in the textile sector and in the manufacture of industrial tapes. For more than a century, five generations of entrepreneurs have successfully acted as the drivers of the business and, at the same time, as guides when it comes to identifying the major advances that have helped it position itself as a benchmark in the global textile sector.*

### SISTEM ONDA SURF ONDA SURF SYSTEM

Tekstilni trak preprečuje, da bi vrvica padla med drsnike, je popolnoma integrirana v mehanizem in je zasnovana tako, da se ne more zaplesti. *The cloth tape stops the cord falling between gliders, fits perfectly into the mechanism and stays tidy without getting tangled with the hooks.*

Nova drsna zasnova, zasnovana za drsenje brez prekrivanja. *New gliders design, intended to slide without overlapping one another.*

Enostavno montaža zaključka nabora, se lahko namesti pred ali po namestitvi mehanizma. *The easy-to-fit brake can be added before or after installing the mechanism.*

Pri odpiranju zavese nov drsniček – zaključek nabora omogoča natančno pozicioniranje brez povratnega učinka. *When the curtain is opened, the new brake means it is precisely located, without any backward movement.*

Sistem onda se razvije z fiksne v sistem otacijskih drsnikov. *The onda system evolves from a fixed to a rotating glider.*

Drsniki so zasnovani tako, da se prilagajajo zakrivljenim stezam. *The gliders are designed to adapt to curved tracks.*

Možnost krojenja polnosti nabora za pogodbene projekte. *Option of tailoring fullness for contract projects.*

### PRILAGODLJIVOST ADAPTABILITY

Drsniki so bili zasnovani za prilagajanje ukrivljenim profilom. *The gliders are designed to adapt to curved tracks.* Možnost konfiguracije nabora za pogodbene projekte. *Option of tailoring fullness for contract projects.*

### UČINKOVITOST EFFICIENCY

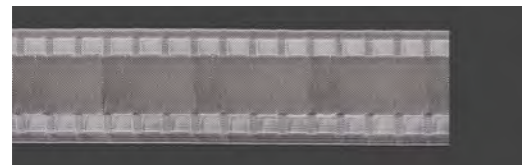

Tkaninski trak preprečuje, da bi vrvica padla med drsnike, se popolnoma prilega mehanizmu in ostane urejena, ne da bi se zapletla s kavlji. *The cloth tape stops the cord falling between gliders, fits perfectly into the mechanism and stays tidy without getting tangled with the hooks.*
